

BEADIFUL  
Baubles™

*unique artisan jewelry*

**Beadiful Baubles** has been in business since January 2003 and has grown out of a love of beading and making beautiful accessories. It has since expanded to include an original line of wire-wrapped fine jewelry.

We use the best materials to hand-craft our jewelry and accessories – Swarovski crystal; exotic glass beads; sterling silver, 14k gold filled, 14k rose gold filled and copper wire; and semiprecious stones from all over the world. We are always in the process of learning new techniques (from firing our own lampwork beads to metalsmithing) and exploring fresh, new ideas.

# YOU SHOULD KNOW

## Determining your bracelet size

Use a flexible measuring tape (or a piece of string) and measure your wrist just below the wrist bone. The measuring tape should be snug but not tight. Then add 1/2" to 1" depending on how tight you like your bracelets to fit – this is your bracelet size.

If the bracelet is a gift and you don't know the bracelet size, the average woman wears a 7 1/4" to 7 1/2" bracelet.

## What is gold filled?

We all know that gold can be expensive, so we offer an economical alternative that keeps a solid layer of 14 karat gold in contact with your skin and eyes! 14 karat gold filled is the affordable solution. The term "gold filled" refers to a process in which a solid layer of gold is fused to a core of semi-precious metal through extreme heat and pressure. It has far more gold than the few microns of gold in gold plate, actually a hundred or more times the amount of gold. Under normal wear 14 karat gold filled jewelry will not peel or flake and can be treasured as heirloom pieces. It is tarnish-resistant like solid 14 karat gold and is safe for most people with sensitive skin who can wear solid 14 karat gold jewelry.

If you prefer, any of our pieces can be made in solid 14k or 18k gold.

## Caring for your jewelry

To keep your handmade sterling silver and 14k gold filled jewelry looking great, we recommend regular cleaning with mild sudsy water, rinse really well, and pat dry with a non-scratching cloth. Store your jewelry in a reclosable jewelry bag or plastic zip-loc bag. This will cut down on tarnish and keep it from being scratched. Proper care of your jewelry will insure a lifetime of use.

## Therapeutic jewelry

Many of the pieces you find in this catalog can be made with copper and magnetic beads. Many health practitioners and scientists have studied the beneficial use of copper and copper jewelry. Many believe that it has anti-inflammatory benefits for joint problems, such as inflammation, arthritis, tendonitis, bursitis, rheumatism and osteoporosis. Magnets have long been believed to have healing powers associated with muscle pain and stiffness.

Copper jewelry will patina over time. To keep your copper bright, dip your piece in a small dish of lemon juice and salt for 30 seconds and rinse.

Magnets should not be worn by pregnant women, people with pacemakers or diabetics. As with any therapeutic product or medication, please consult with your doctor if you have any questions and continue with regular medical care.
